

HAMILTON COLLEGE MODULAR DORMITORY

Mobile Modular created temporary dormitories for Hamilton College to help space out students during the coronavirus outbreak.

THE CHALLENGE

Hamilton College needed “temporary” dorm space to space out the students during the coronavirus outbreak. They bought these buildings with the intent to relocate them or sell them in the future.

They needed dormitory space for approximately 72 students and needed to have a commune space with a kitchenette and laundry facilities.

THE SOLUTION

Modular Mobile utilized a design agreement and came up with a great floor plan that included PTAC units for climate-controlled rooms and gender-neutral ADA restrooms that we could have built/delivered/installed in time for the start of school. We finished this job in time for the start of school and the students are able to go back to a safer environment.
