

IMMACULATE HEART OF MARY CATHOLIC CHURCH

Mobile Modular provided Brentwood, CA with an entirely new church featuring a stucco exterior and Spanish-tiled roof.

THE CHALLENGE

Immaculate Heart of Mary Catholic Church embarked on an ambitious mission to construct a multi-building church campus, encompassing a total of 12,000 square feet across five distinct facilities. After a rigorous selection process, the church entrusted the turnkey solution to Mobile Modular, a company recognized for its comprehensive project management and manufacturing capabilities.

THE SOLUTION

Mobile Modular faithfully executed the church architect's designs during the manufacturing phase to ensure both aesthetic and functional specifications were met. The foundation installation and crane setting were completed efficiently within a week, complemented by additional infrastructure work like sewer and water lines, fire sprinkler systems, walkways, and concrete groundwork. Canopies were also erected to enhance the campus's accessibility and comfort for members in varying weather conditions.
