

MID-SIOUX OPPORTUNITY HEAD START

Mobile Modular provided Mid-Sioux, a non-profit, with a turn-key modular solution for its education facility to help serve pre-school children.

THE BACKGROUND

The Mid-Sioux Opportunity Head Start Program had purchased property in Cherokee and applied for and received a grant to help build the new facility.

Customer Name: Mid-Sioux Opportunity Head Start

Project Location: Cherokee, IA

Building Type(s): Modular Classrooms

Job Type: Sale

Total Sq. Ft: 3,136 sq. ft.

THE CHALLENGE AND SOLUTION

After looking into traditional construction, they found the architect fees alone were enough to investigate other options. As a not-for-profit Community Action Agency that helps low-income families in Northwest Iowa, Mid-Sioux was looking for the most cost-effective way to construct a new facility.

The turn-key modular project consisted of a two-classroom building with office space and a kitchen that serves pre-school children.
