

LAW ENFORCEMENT AGENCY LOCKER AND SHOWER MODULAR BUILDING

Mobile Modular Provides Long-Awaited
Conveniences for Some of California's Finest

THE CHALLENGE

A law enforcement agency in Woodland, California needed a new locker room and shower facility for their officers. Mobile Modular met the challenge by installing the roof and ceramic tile on-site. Other work completed on-site included trusses, locker installation, flooring, restroom partitions, counter tops, and all plumbing fixtures. A total of 23 vendors contributed to this project, with oversight and contributions from various agencies.

THE SOLUTION

The finished structure, completed in 2022, is 1848 square feet, with state-of-the-art men's and women's locker rooms, showers, and an issue room where officers can charge their radios and store additional equipment. The well-designed locker room is efficiently built to accommodate the team's needs. Woodland law enforcement did not previously have any showers or lockers at their facility, so this was a long-awaited addition. As a comprehensive modular solutions provider, Mobile Modular is proud to serve the needs of this government agency!

Project Partners: California Government Agency

Building Use: Locker, Shower and Equipment Facility
